Delhi Pharmaceutical Sciences and Research University

## **HANDS-ON-TRAINING OF DISSOLUTION TESTING APPARATUS**

A hands-on-training was organized for the students of Department of B.Pharm (Ayu). Students from 2<sup>nd</sup> and 4<sup>th</sup> semester participated in the training program. It was conducted in lab 410 at 2:00 pm. Faculty members of the department, Dr. Foziyah Zakir, Dr. Saveena Chauhan and Dr. Roshni Tandeey attended the training. The engineer from the company detailed the working and principle of the equipment. A demo was given by performing the dissolution test of marketed tablet available the lab. The students benefitted from the training program as they learned about the different accessories and methods for dissolution testing. The paddle, paddle over disc, basket type and transdermal cylinder attachments were used and the protocols for the testing of different dosage forms was designed.
