7. Participants must attend all sessions of the program, to make them eligible for TA/DA and certificate of QIP.

8. Attendance of participants will be strictly maintained in every lecture/visit/demonstration.
Dear Delegates/Fellow Professionals

It is my privilege to welcome fellow pharmacy teachers of AICTE approved Pharmacy Colleges on the occasion of four AICTE sponsored, one week each, Quality improvement programs at DIPSAR, a premier Pharmaceutical Education and Research Institution. The Institute is known for its high academic standards in teaching and research in various facets of Pharmaceutical Education. The alumni of the Institute are working as top class pharmaceutical professionals contributing significantly towards the development of Indian pharmaceutical industry and health care system of the country. The students have the opportunity to work in specialized laboratories of each department which boast of highly sophisticated instruments for post graduate and Ph.D studies in addition to the basic required facilities for practical training of undergraduate students. The institute has well established research laboratories in the areas of Ocular Pharmacology, Indian system of Medicine, Phyto-chemistry, Synthetic Medicinal Chemistry, Novel Drug Delivery Systems, Drug Design & Development etc. The institute has a rich library facility. We have impressive placement history. I take this opportunity to invite the faculty members from all over the country to enhance their knowledge and skills.

About DIPSAR:
Delhi Institute of Pharmaceutical Sciences and Research (DIPSAR), is constituent college of the first Pharmacy University of India, Delhi Pharmaceutical Sciences and Research University (DPSRU). DIPSAR is a State of the Art Pharmacy Institute with legacy of more than 55 years since 1964. This premier Institute is preserving its heritage of high standards in teaching and research, producing top class pharmaceutical scientists and pharmacists.

Some of the facilities available:
- Centralized Instrumentation Lab
- State of the Art Animal House Facility
- Ocular Pharmacology Laboratory
- Novel Drug Delivery System Laboratory
- Modern Information Technology Laboratory
- Auditorium with 250 seating capacity

About the Program
The aim of the program is to provide insight to the fellow pharmacy teachers about the recent developments in various facets of the healthcare profession. The topics planned for various QIP’s are - Entrepreneurship, Managerial skills, Pedagogy, soft skills, separation techniques, Interpretation of analytical data, Bio-statistics, IPR, DRA, Health Economics, Pharmacovigilance, Scientific/Medical writing etc in addition to industrial or research institute visit. Thus the program would benefit each participant in a unique way.
